SAUMYA BHARDWAJ

MERN STACK WEB DEVELOPER

Delhi, India | +91 9717831874 | samisharma000@gmail.com | LinkedIn | Github | Portfolio

PROFESSIONAL SUMMARY

B.Tech CSE undergraduate specializing in AI and ML, with a strong focus on developing scalable web applications. Proficient in MERN Stack with hands-on experience in full-stack development, REST APIs, and responsive UI design. Seeking a Full Stack Developer role to contribute to impactful projects. Demonstrated ongoing technical growth through mastering new programming languages and frameworks, resulting in the delivery of clean, efficient, and maintainable code for high-quality project outcomes.

EDUCATION

Maharshi Dayanand University (MDU) *Sep 2023 – Present*
Computer Science and Engineering | Bachelor of Technology (B.Tech)
Guru Nanak Dev Rohini Campus (DSEU) *Sep 2020 – June 2023*
Computer Science | Diploma in Computer Engineering

TECHNICAL SKILLS

Programming Languages : Java, Python, JavaScript(ES6+).
Frontend : React.js, Redux Toolkit, Tailwind CSS, Material UI, Axios.
Backend: Node.js, Express.js, REST APIs, JWT Authentication, Bcrypt.js, WebSocket .
Databases & Cloud : MongoDB, MySQL, Cloudinary, Firebase Cloud Messaging(FCM).
AI & Architecture : Generative AI (Applied), AI-Assisted Content Systems, System Design (Basics).
Tools & Platforms: Git/GitHub, Postman,Vercel, Render, Chrome DevTools

WORK EXPERIENCE

Full Stack Web Developer *Jan 2023 – April 2023*
APK WEBTECH |On Site

- Developed and maintained responsive web applications using PHP, MySQL, HTML, CSS, and JavaScript, delivering seamless user experiences across devices and increasing user engagement by 55%.
- Integrated databases and managed sessions with clean, secure, and scalable backend code, improving data handling efficiency by 25%.
- Enhanced website performance by implementing code minification and image optimization, resulting in a 35% faster load time and increased user engagement.

PROJECTS

Meloque – AI Powered Content Publishing Platform | Link | Github

- Developed a production-grade MERN blogging platform with GenAI-powered Blog Assist to generate descriptions, tags, and full content from a title, including daily usage limits and failure-safe logic.
- Implemented real-time likes, comments, follows, and notifications using Socket.IO and Firebase Cloud Messaging for instant UI and push updates.
- Designed a rich authoring and discovery experience using Editor.js, debounced search, JWT authentication, Redux Toolkit, and Cloudinary image uploads.

Pocket Cart – Real -Time Shopping Platform | Link | Github

- Built a production-ready React e-commerce platform with dynamic product listings, category filtering, and real- time cart management using Context API.
- Developed a scalable, responsive UI with reusable components, Tailwind CSS, and smooth user flows across browsing, cart, and checkout.
- Implemented an end-to-end shopping workflow including pricing logic, quantity updates, and state persistence.

ACHIEVEMENTS & CERTIFICATIONS

Certifications: Artificial Intelligence [CodeSoft], Web Development [Coding Blocks], Machine Learning I [Columbia+], Introduction to Generative AI Studio [simplilearn],Web Design and Development [SkillIndia].
Code Quality: Improved maintainability by reducing code duplication by 25% through strategic refactoring.
