

SAUMYA BHARDWAJ

FULL STACK WEB DEVELOPER

Delhi, India | +91 9717831874 | samisharma000@gmail.com | [LinkedIn](#) | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

B.Tech CSE undergraduate specializing in AI and ML, with a strong focus on developing scalable web applications. Proficient in MERN Stack with hands-on experience in Full Stack Development, REST APIs, and responsive UI design. Seeking a Full Stack Developer role to contribute to impactful projects. Demonstrated ongoing technical growth through mastering new programming languages and frameworks, resulting in the delivery of clean, efficient, and maintainable code.

EDUCATION

Maharshi Dayanand University (MDU)

Sep 2023 – Present

Computer Science and Engineering | B.Tech (75%, Ongoing)

Guru Nanak Dev Rohini Campus (DSEU)

Sep 2020 – June 2023

Computer Science | Diploma in Computer Engineering (81%)

TECHNICAL SKILLS

Programming Languages : Java, Python, JavaScript(ES6+).

Frontend : React.js, Next.js, Redux Toolkit, Tailwind CSS, Material UI, TypeScript.

Backend: Node.js, Express.js, REST APIs, JWT, Bcrypt.js, WebSocket.

Databases & Cloud : MongoDB, MySQL, Supabase (PostgreSQL), Cloudinary, Firebase (FCM), Microsoft Azure.

DevOps & Infrastructure: Azure VM, Nginx, PM2, SSH, Git/GitHub, Vercel, Render.

Tools & Platforms: Postman, Chrome DevTools, Agile/Scrum.

WORK EXPERIENCE

Full Stack Web Developer

Jan 2023 – April 2023

APK WEBTECH | Internship | On-Site

- Developed and maintained responsive web applications using PHP, MySQL, HTML, CSS, and JavaScript, delivering seamless user experiences across devices and increasing user engagement by 55%.
- Integrated databases and managed sessions with clean, secure, and scalable backend code, improving data handling efficiency by 25%.
- Enhanced website performance by implementing code minification and image optimization, resulting in a 35% faster load time and increased user engagement.

PROJECTS

DPI Control Plane – Real-Time Network Packet Inspection Platform | [Link](#) | [Github](#)

- Built a full-stack Deep Packet Inspection dashboard with React + Node.js + Python engine that captures and classifies live network traffic in real time using Scapy and libpcap.
- Implemented JWT-based role system (Admin/Viewer) with Supabase PostgreSQL - admins control blocking rules, viewers get read-only analysis with PDF report export.
- Deployed on Microsoft Azure VM (Ubuntu 22.04) with Nginx reverse proxy, PM2 process manager, and SSL.

Meloque – AI Powered Content Publishing Platform | [Link](#) | [Github](#)

- Developed a production-grade MERN blogging platform with GenAI-powered Blog Assist to generate descriptions, tags, and full content from a title, including daily usage limits and failure-safe logic.
- Implemented real-time likes, comments, follows, and notifications using Socket.IO and Firebase Cloud Messaging for instant UI and push updates.
- Designed a rich authoring and discovery experience using Editor.js, debounced search, JWT authentication, Redux Toolkit, and Cloudinary image uploads.

ACHIEVEMENTS & CERTIFICATIONS

Certifications: Artificial Intelligence [[CodeSoft](#)], Web Development [[Coding Blocks](#)], Machine Learning I [[Columbia+](#)], Introduction to Generative AI Studio [[simplilearn](#)], Web Design and Development [[SkillIndia](#)].

Professional Development: Successfully completed TCS iON Career Edge – Young Professional by Tata Consultancy Services (TCS) covering Communication, Soft Skills, Resume Writing, Interview Skills & Overview of AI. [[View Certificate](#)]

Code Quality: Improved maintainability by reducing code duplication by 25% through strategic refactoring.
